SYSTEMIC DEFENSE & PURIFICATION

Advanced Liposomal Vitamin C (Immune Shield & Collagen Synthesis)

An advanced intracellular delivery system offering supreme molecular defense. By utilizing nano-liposomal encapsulation, this protocol maximizes cellular uptake to neutralize urban oxidative stress and stimulate high-grade collagen production. Absolute immune resilience, formulated in clinical grades for both adult and pediatric biology.

Adult Protocol

Family Ecosystem

POLLEN-SHIELD™ Ecosystem (Respiratory Histamine Balancer)

The ultimate dual-action bio-hacking protocol for environmental defense. The internal liposomal matrix optimizes your cellular response to block histamine release, while the high-precision thixotropic nasal spray physically traps micro-particles in an isotonic bio-mechanical shield. Complete respiratory clarity and 360° systemic protection.

Internal Shield

Complete Fortress

Biological Terrain Reset (Systemic Detox & Cellular Regeneration)

A profound biological reset protocol. CHIPPEWA™ acts as a high-performance botanical matrix for systemic purification and heavy metal clearing. Paired with Lei Gong Teng's ultra-concentrated 40:1 extract, this synergy orchestrates deep immunological recovery, regulates cellular proliferation, and prepares your architecture for true genetic bio-hacking.

Heavy Metal Clearing

Cellular Regeneration

THE LONGEVITY CORE

Advanced Liposomal NMN™ (NAD+ Precursor & Mitochondrial Fuel)

The absolute standard in cellular bio-hacking. Utilizing nano-liposomal encapsulation, this pure bio-identical precursor bypasses gastric degradation to directly restore NAD+ reserves. It provides the essential molecular fuel required for deep cellular energy (ATP) production, gene repair, and profound biological age reversal.

Starter Protocol
(500ml)

Extended Protocol
(2000ml)

The Sinclair Synergy Protocol (NMN & Resveratrol Integration)

Inspired by advanced longevity research, this is the ultimate biological synergy. While NMN delivers the essential cellular fuel (NAD+), the Trans-Resveratrol acts as the accelerator, directly activating the sirtuins (longevity genes). A high-performance dual matrix designed for systemic protection and complete genetic activation.

Pure Resveratrol

Complete Synergy
Protocol

SABLEX™ Complete Ecosystem (Telomere Rejuvenation Protocol)

The apex of genetic bio-hacking. This clinical ecosystem combines the shock-intervention of SABLEX RESET™ to mechanically rebuild telomeres and extend the Hayflick Limit, with the daily sublingual shield of SABLEX INFINITY™. Designed to reverse cellular senescence and lock your biological architecture at peak performance.

Reset Intervention

Complete Ecosystem

EXTERNAL ARCHITECTURE

The Beard Grooming Protocol (Advanced Follicle Bio-Hacking)

Engineered to support and fortify the cellular architecture of facial hair. Unlike commercial synthetic oils, this 100% botanical dry-oil matrix instantly penetrates the cuticles without clogging pores. It neutralizes skin irritation, stimulates micro-circulation, and reconstructs the lipid barrier for supreme elasticity and absolute control.

Targeted Serums

The 1% Protocol (Set)

TEXTILE DETOX™ Protocol (Hypoallergenic Systemic Homeostasis)

True systemic purity requires an environment free from petrochemical toxicity. This advanced clinical extraction protocol breaks down organic impurities at a molecular level while preserving fabric integrity. Formulated with zero synthetic fragrances or harsh sulfates, it resets the textile microbiome to completely protect your skin's natural barrier.

Essential Yield (350g)

Master Yield (700g)
